Module

xw	<code>\\ eXtraWay lua api\\ \\ This library provides functions for eXtraWay server side scripting\\ \\ \\</code>
xw.csv	<code>\\ CSV encoder/decoder\\ Part of this code is from lua-users.org\\ \\ \\</code>
xw.dbg	<code>\\ Debug client\\ \\ \\</code>
xw.export	<code>\\ Exporting record procedures\\ \\ Also provides an 'export' package that can be called from applications as a direct Stored Procedure and Wraps those functions.\\</code>
xw.json	<code>\\ JSON encoder/decoder\\ \\ \\</code>
xw.log	<code>\\ log: eXtraWay log client\\ \\ \\</code>
xw.mail	<code>\\ Mail client\\ \\ \\</code>
xw.serialize	<code>\\ Serialization support\\ \\ \\</code>
xw.session	<code>\\ Session support\\ \\ \\</code>
xw.utils	<code>\\ xw general purpose utils\\ \\ \\</code>
xw.zip	<code>\\ ZIP builder/reader\\ \\ \\</code>
xwTools	<code>\\ Wrapper for backward compatibility\\ we discourage to use it\\ use xw.utils or xw itself instead\\ \\ \\</code>
